

HOW TO DOWNLOAD AND INSTALL ZOOM

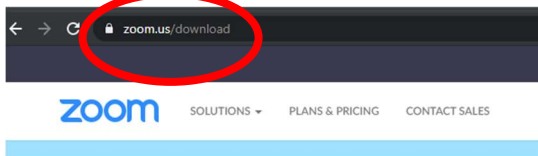

Zoom is a video call app used to communicate with a reliable platform for video, audio conferencing, webinars, among others.

To download Zoom you must open your favorite internet browser (Chrome, Safari, Microsoft Edge, Firefox).

Type

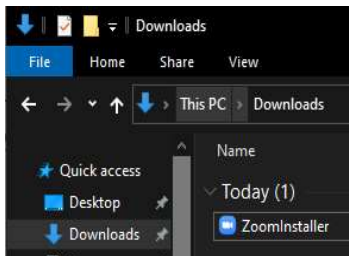

www.zoom.us/download and you will be redirected to the download center

Click on the Download button below zoom for Client Meetings and the process will begin. Once it is finished go to the download folder on your file system and you will see the zoom installer.

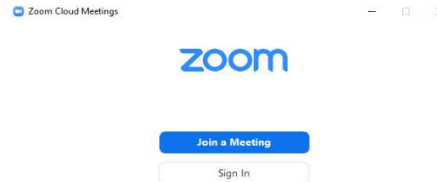

Windows users
.exe file extension

MacOS users .pkg

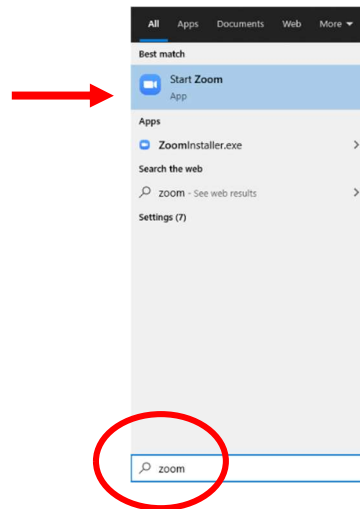

Double click on the installer and the installation process will begin, it can take several minutes until it is completed.

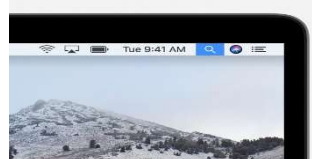

Once it finishes installing a window will pop up and you are ready to start using Zoom App

If it is not showing you can start the app by doing a quick search next to the windows logo on the bottom left corner and type: Zoom, click on the Zoom App to open.

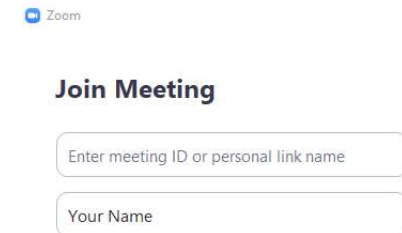

Note: For MacOS users the spotlight search will be on the top right corner of the screen.

Click on Join a Meeting

You will have to provide a meeting ID (which it is sent to you by the organizer and you will have to type your name

Then click on Join and check your preferences of audio and video

- Remember my name for future meetings
- Do not connect to audio
- Turn off my video

You are ready to start using Zoom and communicate with your love ones!
